GENERAL INFORMATION

1. From FIU and transfer courses you must have at least 120 total hours (including 36 major hours) to earn a B.A. in Psychology from FIU. A "C-" does not count as a grade of "C" or better.
2. All courses in the major are taught in the Department of Psychology, except Statistics, STA 3123 is taught by the Department of Statistics and is listed with their courses. Other courses not offered by Psychology **do not** count toward our major. For example, Education Psychology (EDP 3004) is taught by the College of Education. It is not counted toward the major, although it will count as a General Elective.
3. "Upper division courses" at FIU are those with 3000 and 4000 level course numbers.

For students with an A.A. degree from a State of Florida community college (MDC, BCC, etc.)

1. You fulfilled basic education requirements when you earned an A.A.
2. The maximum number of credits you may transfer into FIU is **60**. This means that you now have to earn at least 60 credits at FIU to receive a Bachelor's degree.
3. Introductory (or General) Psychology meets the requirements for entry into the major.
4. Additional Psychology courses taken at the lower division level (at a community college) **cannot** be transferred to satisfy the Psychology major upper division courses at FIU.

For students transferring from any college/university without a Florida A.A. degree

1. If you are transferring without a Florida AA Degree, you must meet the requirements of the University Core Curriculum (UCC) as described in the FIU Catalog.
2. University Core Curriculum (UCC) may be met by courses transferred into FIU, courses taken from FIU or a combination of FIU and non-FIU courses. Once you are accepted into FIU, your transfer credits will be evaluated and any UCC deficiencies will be noted.

For students transferring who have earned upper division university course credits

1. The maximum number of credit hours transferrable into FIU is **90**. You may transfer up to 60 hours of lower division credit hours and up to 30 hours of upper division.
2. Regardless of the number of upper division credit hours of Psychology that you have taken at another college or university, the maximum number that you may use to meet FIU's requirements is 18. You **must** take 18 of the 36 required credits for the major **at FIU**. Additional upper division transfer hours may be counted as general electives.

All students with fewer than 60 transferred credits must have 9 summer credit hours prior to graduating.

NOTE: It is every student's responsibility to make sure they have 120 credits, 48 of which MUST be upper division, prior to graduation.
